No. 2.—The Government of India (Commencement and Transitory Provisions) Order, 1936, is published:—

The Government of India (Commencement and Transitory Provisions) Order, 1936.

AT THE COURT AT BUCKINGHAM PALACE,

The 3rd day of July 1936.

Present,

THE KING'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS by section three hundred and twenty of the Government of India Act, 1935 (hereafter in this Order referred to as "the new Act"), it is provided that the provisions of that Act other than those of Part II thereof shall, subject to any express provision to the contrary, come into force on a date to be appointed by His Majesty in Council for the commencement of Part III thereof, but His Majesty in Council is empowered to fix an earlier or later date for the coming into operation, either generally or for particular purposes, of any particular provisions of the Act:

AND WHEREAS by section three hundred and ten of the new Act His Majesty in Council is empowered, for the purpose of facilitating the transition to the provisions of the new Act from the provisions of the Government of India Act (hereafter in this Order referred to as "the old Act"), to direct that the new Act and any provisions of the old Act still in force shall, during a limited period, have effect subject to adaptations and modifications, to make with respect to a limited period temporary provision for ensuring that during and after the transition there are available to all Governments in India sufficient revenues to enable the business of those Governments to be carried on, and to make other temporary provisions for the purposes of removing any difficulties arising in relation to the transition:

AND WHEREAS a draft of this Order was laid before Parliament in accordance with the provisions of sub-section (1) of section three hundred and nine of the new Act and an Address has been presented to His Majesty by both Houses of Parliament praying that an Order may be made in the terms of this Order:

NOW, THEREFORE, His Majesty, in the exercise of the said powers and of all other powers enabling him in that behalf, is pleased, by and with the advice of His Privy Council, to order, and it is hereby ordered, as follows:—

1. This Order may be cited as "The Government of India (Commencement and Transitory Provisions) Order, 1936."

2. The Interpretation Act, 1889, applies for the interpretation of this Order as it applies for the interpretation of an Act of Parliament.

3. (1) The provisions of the new Act, other than those of Part II thereof and other than those referred to in the next succeeding sub-paragraph, shall, subject to the provisions of that Act and of this and any other Order in Council made thereunder, come into force on the first day of April, nineteen hundred and thirty-seven, and accordingly that date is the date referred to in that Act as the date of the commencement of Part III thereof.

(2) The provisions of Part VIII of the new Act, of Chapter I of Part IX of that Act, and of the Eighth Schedule to that Act,

shall come into force on such dates as His Majesty in Council may hereafter appoint, and section two hundred and thirty two of that Act shall not come into force until the establishment of the Federation.

(3) In this paragraph the reference to Part II of the new Act shall be deemed to include a reference to the First and Second Schedules thereto, and to so much of the Third Schedule thereto as relates to the Governor-General

4. (1) So far as may be necessary for the purpose of enabling the members of all the Provincial Legislatures to be duly chosen in time for those Legislatures to be ready to meet by the commencement of Part III of the new Act—

(a) the provisions of Parts III and XII of, and of the Fifth and Sixth Schedules to, the new Act shall (so far as those provisions are not already in force) come into force on the date of the making of this Order; and

(b) any Orders in Council or rules made under the new Act with respect to those Legislatures, whether before or after the making of this Order, shall come, or, as the case may be, be deemed to have come, into operation at the date of the making of the Orders or rules in question, and shall authorise or, as the case may be, be deemed to have authorised the giving of any notice or direction, and the taking of any other step, given or taken in anticipation of the making or coming into force of the Orders or Rules in question.

(2) References in sub-section (2) of section sixty-eight of the new Act to the Federal Legislature shall during the period before the commencement of Part III of that Act (as well as during the period in which Part XIII of that Act is in force) be construed as references to the Indian Legislature.

(3) For the avoidance of doubt it is hereby declared that a person who has been chosen to be a member of the Legislative Assembly of Bengal or of the Legislative Assembly of Bihar may, before the commencement of Part III of the new Act, take part in an election to choose members of the Legislative Council of the Province notwithstanding that he has not taken his seat or taken the oath prescribed by section sixty-seven of the new Act.

5. (1) The Governor of each Province may in his discretion from time to time authorise such expenditure from the revenues of the Province as he deems necessary to enable the business of the Provincial Government to be carried on between the commencement of Part III of the new Act and the date on which a schedule of authorised expenditure is authenticated in accordance with the provisions of section eighty of the new Act, or until the expiration of six months from the commencement of Part III of the new Act, whichever first occurs:

Provided that, except with the consent of the Governor-General in his discretion, the expenditure so authorised shall not exceed one-half of the total expenditure from the revenues of the Province in the previous financial year as shown in the revised estimates for that year.

(2) The expenditure authorised under the preceding sub-paragraph shall be included under the appropriate heads in the first estimates of expenditure laid before the Provincial Legislature under section seventy-eight of the new Act, and the provisions of that section and of sections seventy-nine and eighty of that Act shall apply in relation thereto:

Provided that any expenditure so authorised shall, so far as regards moneys paid and liabilities incurred before the date on which a schedule of authorised expenditure is authenticated in accordance with the provisions of the said section eighty, be deemed for all purposes of the new Act to have been duly authorised notwithstanding that it may not be included in the Schedule so authenticated

(3) The following provisions of this sub-paragraph shall apply in relation to any expenditure incurred from the revenues of a Province in respect of a period before the commencement of Part III of the new Act in excess of the expenditure authorised in respect of that period under the relevant provisions of the old Act—

(a) the Governor of the Province may, in his discretion, at any time before the expiration of six months from the commencement of Part III of the new Act declare any such expenditure to have been duly authorised; and

(b) in so far as no such declaration has been made, the provisions of section eighty-one of the new Act (which relates to supplementary statements of expenditure) shall apply in relation to any such expenditure as they apply in relation to expenditure in respect of financial years after the commencement of the said Part III.

6. The Governor of each Province in his discretion may by public notification continue for a period not exceeding twelve months from the commencement of Part III of the new Act any taxation which was being levied for the purpose of the Province and would otherwise expire, without prejudice, however, to the powers of the Provincial Legislature as to the imposition and remission of taxation.

7. Before the first general elections are held to choose the members of the Legislative Assembly of any Province, the Governor shall prorogue the existing Legislative Council, if any, of that Province until the first day of April, nineteen hundred and thirty-seven, and on the commencement of Part III of the new Act the Council shall automatically be dissolved.

The reference in this paragraph to elections held to choose members of a Legislative Assembly does not include a reference to primary elections held to choose candidates for seats in that Assembly.

8. On the commencement of Part III of the new Act, the members of the Council of State and the Legislative Assembly of the Indian Legislature who have been elected or nominated to represent Burma or Burma constituencies shall vacate their seats

9. (1) Acts of the Indian Legislature made before the commencement of Part III of the new Act (including Acts made under section sixty-seven B of the old Act) may, notwithstanding the repeal of the old Act and notwithstanding anything in section two hundred and ninety-two of the new Act, be validly made so as first to come into force at, or at any time after, the commencement of Part III of the new Act, but any Act which is valid only by virtue of this paragraph shall, except as respects things done or omitted to be done before its expiration cease to have effect on the expiration of twelve months from the commencement of Part III of the new Act:

Provided that—

(a) any such Act may be continued, repealed or amended by any Legislature or authority having for the time being power to legislate in relation to the subject-matter of the Act;

(b) any such Act shall have effect as part of the law of British India, but not as part of the law of Burma;

(c) if and in so far as any such Act is inconsistent with the new Act, or any Order in Council made thereunder (whether made before or after the Act of the Indian Legislature) the new Act, or the Order in Council, as the case may be, shall prevail.

(2) This paragraph shall apply in relation to regulations and ordinances made under sections seventy-one and seventy-two of the old Act as it applies in relation to Acts of the Indian Legislature.

10. Where any functions of a Local Government under any existing Indian law are transferred by or under the new Act to the Federal Government, the Provincial Government shall, nevertheless, continue to perform those functions for such period, if any, not exceeding one year from the commencement of Part III of the new Act, as the Governor-General may fix, and shall, in the exercise thereof, be subject to the like control by the Governor-General in Council as immediately before the commencement of the said Part III.

11. Section sixteen of the new Act (which authorises the appointment of an Advocate-General for the Federation) and so much of sub-section (3) of section thirty-three thereof as declares his salary and allowances to be charged on the revenues of the Federation shall come into force on the commencement of Part III of the new Act.

12. So much of section 321 of, and of the Tenth Schedule to, the new Act as repeals sub-section (2) of section 67 of the old Act down to the words: "the revenues of India" shall not take effect until the establishment of the Federation.

13. (1) The provisions of this paragraph shall have effect with respect to the period before the commencement of Part III of the new Act.

(2) The accounts for the said period which, but for the commencement of the said Part III would have been audited in India, shall be audited under Part VII of the new Act as if they were accounts of the Governor General in Council, but the Auditor-General of India shall transmit to the Secretary of State such information as is necessary to enable him properly to perform the duties mentioned in the subsequent provisions of this paragraph.

(3) The accounts for the said period which, but for the commencement of Part III of the new Act, would have been audited in England by the auditor of the accounts of the Secretary of State in Council shall be audited by the Auditor of Indian Home Accounts, who shall have the like powers and perform the same duties in relation thereto as the auditor of the accounts of the Secretary of State in Council would have had if the new Act had not been passed, except that anything to be done by or to the Secretary of State in Council shall be done by or to the Secretary of State; and sub-section (3) of section twenty-seven of the old Act and paragraph 9 of the Order in Council of nineteen hundred and twenty relating to the duties of the High Commissioner shall apply accordingly.

NOTIFICATION

Fort St. George, August 1, 1936

No. 212 —

The following Press Communiqué issued by the Government of India in the Home Department, dated Simla, the 9th July 1936, is republished :—

PRESS COMMUNIQUÉ.

The following announcement by the Secretary of State for India in Council is published for general information :—

In the announcement regarding the impending changes in the system of recruitment for the Indian Civil Service, which was published on the 27th April 1936, it was stated that the Delhi examination was to become, as was originally intended, the main channel of Indian recruitment, but that, in order to provide for Indians educated in the British Isles, a limited number of vacancies at the London examination would remain open to such Indians as have taken an Honours Degree or its equivalent at an approved University in the British Isles, after at least two years' residence. It was further stated that this requirement would not be enforced until 1939 for Indian candidates competing in London in 1937 and 1938 the requirements would be residence for one year and two years respectively, but an Honours Degree need not have been taken.

The following notice is issued in amplification of the above statement —

In the announcement of the 27th April the expression "have taken an Honours Degree or its equivalent at an approved University in the British Isles" denotes "have passed an examination qualifying for an Honours Degree at an approved University in the British Isles or have passed an examination of equivalent standard at an approved institution of University rank (other than a University) in the British Isles"; "years" denotes "academic years" and "residence" denotes "full-time membership of such University or institution or of one of the University Colleges enumerated in the footnote" [1]

In order to be eligible to compete at the London examination in 1937 and 1938 Indian candidates who have not obtained the academic qualifications stated above must, in the case of candidates competing in 1937, satisfy the condition as to residence for the academic year 1936-37, and, in the case of candidates competing in 1938, for the academic years 1936-37 and 1937-38, and must throughout have been engaged in reading for an Honours Degree or an approved alternative. Candidates will be required to produce a certificate from the authorities of the University or University College at which they are members showing that these conditions have been fulfilled. Cases in which it is represented that strict enforcement of the terms of this announcement would occasion undue hardship will be considered by the Secretary of State on their merits.

Any enquiry concerning the interpretation of these rules should be addressed to the Under Secretary of State for India.

Bellary.	Tellicherry.
Cuddapah.	Mangalore.
Chittoor.	Madras.
Vellore.	Ernakulam.
Chingleput.	Trichur.

NOTE.—Should the number of candidates who have applied to be examined at any one of the above centres fall short of five, the candidates selected that centre must be prepared to proceed at their own expense, to the nearest centre where the examination may be held. Timely notice will be given to the candidates concerned.

If a candidate who belongs to an Indian State selects a centre in another Indian State, he should submit his application for admission to the examination through the educational authorities of the State to which the centre selected belongs, so that they may have an opportunity of disallowing the selected centre and directing the candidate to select a centre in the State of which he is a resident. If this objection is not taken, candidates may constitute that their names will be registered for examination at the centres mentioned by them in their applications.

6. No notice will be taken of the application of any candidate who selects a centre which is not in the above list, and no candidate will be allowed to name more than one centre. No candidate will on any account be allowed to change the centre of examination selected in his application, which must invariably be the place where he is employed or ordinarily resides or should it not be a centre the place nearest to it where the examination is held. A candidate appearing for examination at a centre other than the one mentioned by him in his application must be prepared to have his examination cancelled.

7. In addition to the above centres, the Commissioner will be prepared to arrange for the holding of the *Written* examinations in the subject at any other place if he is satisfied that not fewer than *fifty* candidates are likely to offer themselves for examination, and it is advisable to make such place a centre. Applications for the inclusion of such place or places in the list of centres should be made to the Commissioner through the local educational or other authorities considered before the 31st August 1936. Ordinarily, however, only one place will be constituted a centre for each district.

8. Candidates whose Examinations, either Written or Oral and Practical, cannot be arranged for at any place must, at *their own expense*, proceed to Madras or to the nearest centre where they are held in the subjects in which they appear. The Oral and Practical Examinations in the subject will be held at those places only where satisfactory arrangements can be made for the conduct of such examinations.

NOTE.—To guard against disappointment in the case of such of the Oral and Practical Examinations as may be held after the Written Examinations, candidates are recommended to refer to Part I-A of the *Fort St. George Gazette*, from time to time, as no intimation will be sent to them.

SCALE OF FEES, WHEN AND WHERE TO BE REMITTED BY CANDIDATES.

9. The following is the scale of fees to be paid by candidates for admission to the examinations:—

	Lower grade.	Higher grade.
	Rs.	Rs.
For each subject	9	12

NOTE.—No candidate will be permitted to come up for examination in more than one grade in the same subject at the same time.

10. (a) Candidates who are employees of the Government of Madras and who desire to be exempted from payment of the prescribed fees should send in forms so as to reach this office on or before the dates specified under paragraphs 17 and 18, their applications through the head of the office, in which they are employed, together with a certificate from the appointing authority to the effect—

(i) that the candidate is at the time of the application undergoing probation and training and that the Government Technical Examinations (subjects with grade to be specified) is prescribed as part of his probation and training whether recruited direct or by transfer,

or

(ii) that it is prescribed as qualification necessary for the candidate to continue in his post without penalty,

or

(iii) that it has been newly imposed on the candidate already in the service concerned.

(b) The applicants should furnish the following particulars also through the officer granting them the certificate for exemption from payment of fees:—

(1) the specific clause [vide (i), (ii) and (iii) above] under which the applicant's case is covered,

(2) if the applicant's case is covered by clause (ii) or (iii), the subject with grade for which, the year, the session (i.e., the month) of examination when, the centre where and the number of times he appeared for the examination availing himself of the concession of exemption from payment of fees; or if the fee paid was ever at any time previous to this intended to him the year and the session of examination to which such refund related as also the amount of refund made in respect thereof.

(c) Certificates for exemption from payment of fees submitted by candidates in respect of previous sessions of examination cannot hold good for the session they are applying and no copy of certificate can be accepted. It is therefore incumbent upon the candidate to obtain one afresh from the appointing authority and submit the same along with the prescribed application form duly filled up.

In the absence of the particulars required as above, the applicants will distinctly understand that their cases will not be considered.

11. The prescribed fee must be paid in every case into a Government Treasury, or, if at Madras, into the Reserve Bank of India, and the receipt (supplied to candidates along with forms of application) signed and given by the Treasury Officer or the Reserve Bank of India attached to the application, which in every case must reach the Commissioner's office on or before the 10th September 1936.

12. Applications for admission to the examinations submitted after the prescribed date will be entertained only on payment of a penal fee of one rupee each and no such applications will be entertained after the lapse of fifteen days from the prescribed date.

13. *On no account will the fees be received in the Commissioner's Office whether sent in cash or by Post Office orders. Neither M.O. coupon nor any temporary receipt that may have been granted, can be accepted. It is, therefore, incumbent upon the candidates to obtain a receipt from the Treasury Officer to whom the amount was sent and forward the receipt so obtained to this office at once, care being taken to see that that receipt also reaches the office by the date prescribed for the submission of applications. No application will be registered unless it reaches the Commissioner's Office by the date prescribed.*

14. *The fee paid will not, ordinarily, be refunded nor will it be reserved for a subsequent examination. Candidates are warned to study the notification carefully and satisfy themselves, before remitting their fees, that they fulfil the prescribed conditions of admission to the examination and that they can, if necessary, proceed, at their own expense, beyond the limits of the examination centre selected by them, for the purposes of undergoing the Written or the Oral and Practical examinations.*

APPLICATION FORMS—PROCURING OF—FILLING IN AND THE SUBMISSION OF APPLICATIONS, ON OR BEFORE THE 10TH SEPTEMBER 1936.

15. Applications prepared in manuscript or typewritten forms or forms intended for other examinations will not be accepted.

16. Candidates in the mufassal should obtain the required application forms from the treasury of the taluk in which they are residents or of the district to which they belong. Candidates in Mysore and Hyderabad States should obtain the same from the Resident's Treasury; those in Travancore, Cochin and Pudukottah States from the Agent's Treasury, Trivandrum, and those in Coorg from the Treasury Officer, Coorg, Mercara. Candidates who are residents of Madras should apply for application forms to the Secretary to the Commissioner for Government Examinations, Cathedral Post Office (Madras), and not to the Collector of Madras.

NOTE.—An addressed envelope (with the required postal stamps affixed) should invariably accompany all requisitions for forms of application. No notice will be taken of a requisition not accompanied by a stamped envelope.

N.B.—No notice will be taken of any application from the candidates in the mufassal requesting to be supplied with application forms from this office.

17. Candidates must send in their applications made out clearly in English on printed forms so that they may reach the Commissioner's Office on or before the 10th September 1936 after which date and for fifteen days only (viz., till the 25th September 1936) applications will be entertained on payment of a penal fee of rupee one each and no such application will be entertained after the lapse of fifteen days from the prescribed date.

18. To admit of the applications reaching the Secretary to the Commissioner for Government Examinations on the due date, candidates should remit their fees sufficiently early, even three or four days before the latest date so that the applications together with their enclosures may reach this office on or before the prescribed date for receipt of applications.

19. Candidates should write their names in Block capitals, their fathers' names and their house names *distinctly* and in *full* in their applications; if 'Hindus' they should state in column 3 of their applications whether they are 'Brahmans,' 'Non-Brahman Hindus,' 'Adi-Dravidas' or 'Adi-Andhras.'

NOTE.—Where candidates should write the letter 'W' in brackets against their names in column 1 of their applications.

20. Only one centre ought to be selected by each candidate, although he may offer several subjects for examination and come up for *different* grades. The centre selected must invariably be the place where he is employed or ordinarily resides. All pupils coming up from the same institution must select the same centre, and the applications of all of them should be forwarded together (along with a covering letter stating the number of applications and also the names of applicants) by the head of that institution, no application of any *private* candidate being enclosed with these applications.

21. Every application should contain satisfactory proof of the applicant's general educational attainments by reason of which he is eligible to appear for the examinations in the subjects and for the grades in them brought up by him.

NOTE.—(1) (a) In the case of those candidates who have completed the Secondary School-Leaving Certificate, full particulars with regard to the name of school, the year when and the serial number of the certificate,

Timely notice will be given to the candidates concerned.

4. *If a candidate who belongs to one Indian State selects a centre in another Indian State he should submit his application for admission to the examination through the educational authorities of the State in which the centre selected belongs, so that they may have an opportunity of disallowing the selected centre and directing the candidate to select a centre in the State of which he is a resident. When objection is not taken, candidates may conclude that their names will be registered for examination at the centres mentioned by them in their applications.*

5. No notice will be taken of the application of any candidate who selects a centre which is not in the above list, and no candidate will be allowed to name more than one centre. A candidate appearing for examination at a centre other than the one mentioned by him in his application must be prepared to have his examination annulled.

6. In addition to the above centres, the Commissioner will be prepared to arrange for the holding of the Written examinations in any of the subjects mentioned at any other place if he is satisfied that not fewer than *fifty* candidates are likely to offer themselves for examination, and it is advisable to make such place a centre. Applications for the inclusion of such place or places in the list of centres should be made to the Commissioner through the local educational or other authorities concerned before the 15th August. Ordinarily, however, only one place will be constituted a centre for each district.

7. Candidates whose Examinations, either Written or Oral and Practical, cannot be arranged for at any place must, *at their own expense*, proceed to Madras or to the nearest centre where they are held in the subjects in which they appear. The Oral and Practical Examinations in such subjects as require them will be held at those places only where satisfactory arrangements can be made for the conduct of such examinations.

NOTE.—To guard against disappointment in the case of such of the Oral and Practical Examinations as may be held either before or after the Written Examinations candidates are recommended to refer to Part I-B of this *Fort St. George Gazette* from time to time as no intimation will be sent to them.

SCALE OF FEES, WHEN AND WHERE TO BE REMITTED BY CANDIDATES.

8. The following is the scale of fees to be paid by candidates for admission to the examinations :—

	Lower grade.	Higher grade.
	Rs.	Rs.
For each subject	6	12

Candidates who have passed the examination in Indian Music may appear for the same grade as a subsequent session for the *Practical Test* alone, with a view to have their proficiency, either in vocal or instrumental music tested.

The scale of fees for this additional Practical Test is rupees three (Rs. 3) only for the Lower grade and rupees six (Rs. 6) only for the Higher grade.

NOTE.—No candidate will be permitted to come up for examination in more than one grade in the same subject at the same time.

9. (a) Candidates who have passed in the Second Class in any subject and grade may come up to qualify for the First Class in that subject and grade on paying the full examination fee.

(b) Where the subject is one in which the examination is divided into stages—for example, Tailoring—candidates having failed in one or two sections in the subject and grade may come up in that section or sections on paying the full examination fee that is prescribed for that particular grade they wish to apply.

10. (a) Candidates who are employees of the Government of Madras and who desire to be exempted from payment of the prescribed fees should send in (so as to reach this office on or before the dates specified under paragraphs 18 and 19) their applications through the head of the office, in which they are employed, together with a certificate from the appointing authority to the effect—

(i) that the candidate is at the time of the application undergoing probation and training and that the Government Technical Examination (subjects with grade to be specified) is prescribed as part of his probation and training whether recruited direct or by transfer,

or

(ii) that it is prescribed as qualification necessary for the candidate to continue in his post without penalty,

or

(iii) that it has been newly imposed on the candidate already in the service concerned.

(b) The applicants should furnish the following particulars also through the officer granting them the certificate for exemption from payment of fees :—

(1) the specific clause [vide (i), (ii) and (iii) above] under which the applicant's case is covered,

(2) if the applicant's case is covered by clause (ii) or (iii), the subject with grade for which, the year, the session (*i.e.*, the month(s) of examination when, the centre where and the number of times he appeared for the examination availing himself of the concession of exemption from payment of fees previous to his applying now; or if the fee paid, was ever at any time previous to this refunded to him, the year and the session of examination as to which such refund related as also the amount of refund made in respect thereof.

(c) Certificates for exemption from payment of fees submitted by candidates in respect of previous sessions of examination cannot hold good for the session they are applying and no copy of certificate can be accepted. It is therefore incumbent upon the candidate to obtain one afresh from the appointing authority and submit the same along with the prescribed application form duly filled up.

In the absence of the particulars required above, the applicants will distinctly understand that their cases will not be considered.

12. Applications for admission to the examination submitted after the prescribed date will be entertained only on payment of a penal fee of one rupee each and no such applications will be entertained after the lapse of fifteen days from the prescribed date.

13. *On no account will the fees be received in the Commissioner's office whether sent in cash or by Post Office orders. Neither M.O. coupons nor any temporary receipt that may have been granted, can be accepted. It is therefore incumbent upon the candidate to obtain a receipt from the Treasury Officer to whom the amount was sent and forward the receipt so obtained to this office at once—care being taken to see that this receipt also reaches the office by the date prescribed for the submission of applications. No application will be registered unless it reaches the Commissioner's office by the date prescribed.*

14. *The fees paid, will not, ordinarily, be refunded nor will it be reserved for a subsequent examination. Neither will any excess fee that may have been inadvertently paid be returned. Candidates are warned to study the Notification carefully and satisfy themselves before remitting their fees, that they fulfil the prescribed conditions of admission to the examination and that they can, if necessary, proceed at their own expense, beyond the limits of the examination centre selected by them, for the purpose of undergoing the Written or the Oral and Practical examinations.*

Failure to write their register numbers may involve the rejection of answer papers.

4. Candidates are not allowed to exceed the time assigned to each paper.

7. CANDIDATES ARE NOT ALLOWED THE USE OF BOOKS OF ANY KIND (EXCEPT AS PROVIDED IN RULE 8). THEY ARE ALSO PROHIBITED FROM INTRODUCING INTO THE EXAMINATION ROOM ANY BOOK OR PORTION OF A BOOK, SLATE, MANUSCRIPT OR PAPER OF ANY DESCRIPTION, FROM COMMUNICATING WITH OR COPYING FROM EACH OTHER, AND FROM COMMUNICATING WITH ANY PERSON OUTSIDE THE EXAMINATION ROOM. ANY CANDIDATE DETECTED IN THE VIOLATION OF THESE RULES WILL BE SENT OUT OF THE ROOM FORTHWITH, AND HIS CONDUCT WILL BE REPORTED TO THE REGISTRAR.

NOTIFICATION.

No. 11.—Any person who wants to import Homœopathic preparations containing very small quantities of spirit into the Madras Presidency may obtain from the Commissioner of Excise a general permit current only for an official year authorizing him to import the preparations during that official year. When applying for such a permit the importer should specify the names of the firms from which he will get his supplies. One copy of the permit granted by the Commissioner will be sent to the Commissioner of Excise of the Provinces from which the preparations are to be imported, another to the Collector of the district concerned and a third to the Inspector of Excise of the circle in which the applicant resides.

2 Before applying for a general permit, the importer should deposit with the Collector of the district in cash a sum not less than Rs. 100 (rupees hundred only). The importer should send the invoice for each importation showing the spirit content of each preparation included in the invoice to the Inspector of Excise of the circle in which he resides. Information regarding the amount of proof spirit contained in each preparation should be supported by a certificate from a competent Excise authority in the Province wherefrom the preparations are to be exported. The consignment should not be broken in bulk by the importer before verification by the Inspector of Excise. The Inspector should, on receipt of the invoice, check it with the consignment imported, calculate the amount of excise duty to be levied and submit the invoice to the Collector of the district with a memorandum showing the amount of duty to be collected. The Inspector should keep a copy of the invoice filed in his office. The Collector should debit the amount of duty leviable on the consignment imported to the deposit made by the importer. The importer should replenish the deposit amount, if exhausted during the currency of the permit or when the balance of the deposit falls short of the amount of duty to be levied on any consignment in transit or on arrival in the Presidency. The permit will cease to be valid if the deposit is not replenished before the next import.

3 A general permit will also be issued provided the importer executes a general bond with sureties, if considered necessary, for such amount as may be fixed by the Collector with reference to the amount of duty likely to be levied on such imports during the year, and agrees to pay duty on receipt of such consignment imported.

4. In the case of importers of spirituous preparations who do not take out general permits prescribed by these rules, the rules in Commissioner's notification, dated 11th February 1931, published on page 454 of the *Fort St. George Gazette*, Part II, dated 3rd March 1931, as amended or modified from time to time, shall apply.

5 The excise duty on the preparations shall be levied at the rates in force at the time. But if the importer is not able to furnish the certificate referred to in paragraph 2 above showing the proof spirit content of each preparation, 1 oz. of such preparation shall, for purposes of calculation of duty, be reckoned as equivalent to 1 oz. of spirit of 30° U.P. strength, i.e., as 160/100 oz. of proof spirit. Duty will be levied on the quantity of spirit so determined at the rates in force.

P. K. R. MENON,
Secretary to the Commissioner of Excise.

The tender should be in the prescribed form obtainable from the Executive Engineer's office. The tenders will be opened by the Executive Engineer, Kistna Eastern Division, at 3 p m. on 25th August 1936.

2. Tenders must be submitted in sealed covers, and should be addressed to the Executive Engineer, Kistna Eastern Division, the name of the tenderer and the name of the work being noted on the cover.

If the tender is made by an individual, it shall be signed with his full name and his address shall be given. If it is made by a firm, it shall be signed with the co-partnership name by a member of the firm, who shall also sign his own name, and the name and address of each member of the firm shall be given. If the tender is made by a corporation, it shall be signed by a duly authorized officer who shall produce with his tender satisfactory evidence of his authorization Such tendering corporation may be required, before the contract is executed, to furnish evidence of its corporate existence.

3. Each tenderer must pay, as earnest money, a sum of Rupees four hundred only into the branch of the Imperial Bank of India or into the Government treasury or sub-treasury within the jurisdiction of the Executive Engineer concerned to the credit of Revenue deposits on behalf of the Executive Engineer of the Kistna Eastern Division and enclose with his tender the challan endorsed accordingly. The earnest money will be refunded to the unsuccessful tenderer on application, after intimation is sent of rejection of the tender or at the expiration of two months from date of tender, whichever is earlier. This refund will be authorized by the Executive Engineer by suitable endorsement on the challan. The earnest money will not be received in cash or currency notes by the Public Works Department Officers.

The earnest money will be retained in the case of the successful tenderer and will not carry any interest. It will be dealt with as provided in the tender.

4. When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the Division office on the date fixed by written intimation to him. He shall forthwith upon intimation being given to him by the Executive Engineer of acceptance of his tender make a security deposit of Rupees four hundred only in one of the forms prescribed in the Madras Public Works Account Code and sign an agreement in the proper departmental form for the due fulfilment of the contract This security deposit together with the earnest money and the amount withheld according to clause 88 of the standard preliminary specification of the Madras Detailed Standard Specifications will be retained as security for the due fulfilment of this contract. If a cash security deposit is made by the contractor he shall follow the procedure laid down in the preceding paragraph for payment of earnest money and such deposit will not bear interest. Failure to attend the Division office on the date fixed in the written intimation from such office or to enter into the required agreement or to make the security deposit as defined in this paragraph shall entail forfeiture of the earnest money.

5. The tenderer shall examine closely the Madras Detailed Standard Specifications, and also the Standard Preliminary Specifications contained therein, and sign the Divisional office copy of the Madras Detailed Standard Specifications and its addenda volume in token of such study before submitting his tender unit rates which shall be for finished work in situ. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications, plans, descriptive specification sheet regarding materials, etc., can be seen at any time between 11 a m. and 5 p m on office days in the office of the Executive Engineer, Kistna Eastern Division,

6. The tenderer's attention is directed to the requirements for materials under the clause "Materials and workmanship" in the "Preliminary Specification." Materials conforming to the British Standard Specifications shall be used on the work, and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries, and satisfy himself about the quality and availability of materials The names of quarries, kilns, etc., wherefrom certain materials are to be obtained will be given in the Descriptive Specification Sheet. The best class of materials to be obtained from the quarries or other source defined shall be used on the work. In every case the materials must comply with the relevant standard specifications. Samples of materials as called for in the standard specifications, or in this tender notice, or as required by the Executive Engineer in any case, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor, after examination of the source of materials defined in the Descriptive Specification Sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification Sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of seigniorage, tolls, etc.

8 The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary Specification" dealing with—

(1) Test, inspection and rejection of defective materials and work,
(2) carriage,
(3) construction plant,
(4) water and lighting,
(5) cleaning up during progress and for delivery,
(6) accidents,
(7) delays,
(8) particulars of payment,
(9) responsibilities and liabilities of the contractor

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

9 A schedule of quantities accompanies this tender notice. It shall be definitely understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that this schedule is liable to alterations by omissions, deductions, or additions at the discretion of the Executive Engineer, Kistna Eastern Division, or as set forth in the conditions of contract The tenderer will, however, base his lump-sum tender on this schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees, annas, and in sums of three pies The rates should be written both in

words and figures and the units in words. The tenderer should also show the totals of each item and the grand total of the whole contract, and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract such lump sum agreeing with the total amount of Schedule 'A.' This schedule accompanying the lump-sum tender shall be written legibly and free from erasures, overwritings or cpprversions of figures. Corrections, where unavoidable, should be made by crossing out, initialing, dating and rewriting.

10. Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or in due time will be rejected. Rates or lump-sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognized; and, if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress, and the dates for the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time, as will be indicated by the Executive Engineer's certificates of the value of work done, will be required. Date of commencement of this programme will be the date on which the site (or premises) is handed over to the contractor.

Six months	20 "
Nine months	40 "
Twelve months	60 "
Fifteen months	80 "

13. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorizing others to receive payment on the contractor's behalf.

14. If further necessary information is required, the Executive Engineer of the division will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

15. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

16. The qualifications of the supervising staff employed by the contractor in the execution of the work will be given due consideration in awarding the contract. The tenderers should therefore state, in clear terms, whether they employ such technical staff and, if so, to give the qualifications of such staff and the extent to which they will be employed on the work.

17. Separate payment will not be made for baling or pumping water. The cost of all works necessary for dewatering and protecting foundations during execution shall be included in the unit rates of the several items relating to foundations.

If the tender is made by a corporation, it shall be signed by a duly authorized officer who shall produce with his tender, satisfactory evidence of his authorization. Such tendering corporation may be required, before the contract is executed, to furnish evidence of its corporate existence.

3. Each tenderer must pay, as earnest money, a sum of rupees five hundred only into the branch of the Imperial Bank of India or into the Government treasury or sub-treasury within the jurisdiction of the Executive Engineer concerned to the credit of revenue deposits on behalf of the Executive Engineer of the Kistna Eastern Division and enclose with his tender the chalan endorsed accordingly. 6. The tenderer's attention is directed to the requirments for materials under the clause "Materials and workmanship" in the "Preliminary Specification". Materials conforming to the British Standard Specifications shall be used on the work, and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected before quoting his rates, to inspect the site of the proposed work. The names of quarries hills, etc., wherefrom certain materials are to be obtained will be given in the Descriptive Specification Sheet. The best class of materials to be obtained from the quarries or other source defined shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications, or in this tender notice, or as required by the Executive Engineer in any case shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. cation Sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of seigniorage, tolls, etc.

8. The tenderers' particular attention is drawn to the sections and clauses in the standard "Preliminary Specification" dealing with—

9. A schedule of quantities accompanies this tender notice. It shall be definitely understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that this schedule is liable to alterations by omissions, deductions, or additions at the discretion of the Executive Engineer, Kistna Eastern Division, or as set forth in the conditions of contract. The tenderer will, however, base his lump-sum tender on this schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees, annas, and in sums of three pies. The rates should be written both in words and figures and the units in words. The tenderer should also show the totals of each item and the grand total of the whole contract, and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract such lump sum agreeing with the total amount of Schedule 'A'. This schedule accompanying the lump-sum tender shall be written legibly and free from erasures, overwritings, or corrections of figures. Corrections, where unavoidable, should be made by crossing out, initialing, dating and rewriting.

10. Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or in due time will be rejected. Rates or lump-sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognized, and, if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress, and the dates for the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time, as will be indicated by the Executive Engineer's certificates of the value of work done, will be required. Date of commencement of this programme will be the date on which the site (or premises) is handed over to the contractor.

Nine months—40 per cent
Twelve months—60 per cent.
Fifteen months—80 per cent.

13. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorizing others to receive payment on the contractor's behalf.

14. If further necessary information is required, the Executive Engineer of the Division will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

15. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

16. The qualifications of the supervising staff employed by the contractor in the execution of the work will be given due consideration in awarding the contract. The tenderers should therefore state, in clear terms, whether they employ such technical staff and, if so, to give the qualifications of such staff and the extent to which they will be employed on the work.

17. Separate payment will not be made for baling or pumping water or for the protective works. The cost of all works necessary for dewatering and protecting foundations must be included in the unit rate.

18. The tender may, however, mention an earlier date which fact will be taken into consideration and this earlier date will thereafter be considered as the date fixed for completion of the work.

The tender should be in the prescribed form obtainable from the Executive Engineer's office. Tenders will be opened by the Executive Engineer at his office at Bezwada at 3 p.m. on 27th August 1936.

2. Tenders must be submitted in sealed covers and should be addressed to the Executive Engineer, Kistna Central Division, the name of the tenderer and the name of the work being noted on the cover.

If the tender is made by an individual, it shall be signed with his full name and his address shall be given. If it is made by a firm, it shall be signed with the co-partnership name by a member of the firm, who shall also sign his own name, and the name and address of each member of the firm shall be given. If the tender is made by a corporation, it shall be signed by a duly authorized officer who shall produce with his tender satisfactory evidence of his authorization. Such tendering corporation may be required, before the contract is executed, to furnish evidence of its corporate existence.

3. Each tenderer must pay, as earnest money, a sum of Rs. 1,000 (rupees one thousand) into the branch of the Imperial Bank of India or into the Government treasury or sub-treasury within the jurisdiction of the Executive Engineer concerned to the credit of Revenue deposits on behalf of the Executive Engineer of the Kistna Central Division and enclose with his tender the challan endorsed accordingly. The earnest money will be refunded to the unsuccessful tenderer on application, after intimation is sent of rejection of the tender or at the expiration of two months from date of tender, whichever is earlier. The refund will be authorized by the Executive Engineer by suitable endorsement on the challan. The earnest money will not be received in cash or currency notes by the Public Works Department officers.

The earnest money will be returned in the case of the successful tenderer and will not carry any interest. It will be dealt with as provided in the tender.

4. When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the Division office on the date fixed by written intimation to him. He shall forthwith upon intimation being given to him by the Executive Engineer of acceptance of his tender make a security deposit of Rs. 1,000 (rupees one thousand) in one of the forms prescribed in the Madras Public Works Account Code and sign an agreement in the prescribed form for the due fulfilment of the contract. This security deposit together with the earnest money and the amount withheld according to clause 3 of the standard preliminary specification of the Madras Detailed Standard Specifications will be retained as security for the due fulfilment of the contract. If a resh

security deposit is made by the contractor he shall follow the procedure laid down in the preceding paragraph for payment of earnest money and such deposit will not bear interest. Failure to attend the Division office on the date fixed in the written intimation from such office, or to enter into the required agreement or to make the security deposit as defined in this paragraph shall entail forfeiture of the earnest money.

5. The tenderer shall examine closely, the Madras Detailed Standard Specifications and also the Standard Preliminary Specification contained therein and a copy of the Divisional office copy of the Madras Detailed Standard Specifications and its addenda volume in token of such study before submitting his tender and rates which shall be for finished work in situ. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications, plans, descriptive specification sheet regarding materials, etc., can be seen at any time between 11 a.m. and 4 p.m. on office days, in the office of the Executive Engineer, Kistna Central Division.

6. The tenderer's attention is directed to the requirements for materials under the clause "Materials and workmanship" in the "Preliminary Specification." Materials conforming to the British Standard Specifications shall be used on the work, and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries, and satisfy himself about the quality and availability of materials. The names of quarries, kilns, etc., wherefrom certain materials are to be obtained will be given in the Descriptive Specification Sheet. The best class of materials to be obtained from the quarries or other source defined shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications, or in the tender notice, or as required by the Executive Engineer in any case, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor, after examination of the source of materials defined in the Descriptive Specification Sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification Sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of seigniorage, tolls, etc.

8. The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary Specification" dealing with—

(1) Test, Inspection and rejection of defective materials and work.
(2) Carriage.
(3) Construction plant.
(4) Water and lighting.
(5) Cleaning up during progress and for delivery.
(6) Accidents.
(7) Delays.
(8) Particulars of payment.
(9) Responsibilities and liabilities of contractors.

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies this tender notice. It shall be distinctly understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that this schedule is liable to alterations by omissions, deductions or additions at the discretion of the Executive Engineer, Kistna Central Division, as is set forth in the conditions of contract. The tenderer will, however, base his lump-sum tender on this schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees, annas, and in sums of three pies. The rates should be written both in words and figures and the rate in words. The tenderer should also show the totals of each item and the grand total of the whole contract and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract such lump sum agreeing with the total amount of Schedule 'A.' This schedule accompanying the lump-sum tender shall be written legibly and free from erasures, overwritings or conversions of figures. Corrections, where unavoidable, should be made by crossing out, initialing, dating and rewriting.

10. Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or in due time will be rejected. Rates or lump-sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognised, and, if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress, and the dates for the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time, as will be indicated by the Executive Engineer's certificates of the value of work done, will be required. Date of commencement of this programme will be the date on which the site (or premises) is handed over to the contractor.

Three months	10 per cent.
Six months	25 "
Nine months	50 "
Twelve months	60 "
Fifteen months	80 "
Eighteen months, etc. ..	100 "

13. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorising others to receive payment on the contractor's behalf.

14. If further necessary information is required, the Executive Engineer of the division will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

15. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

16. The qualifications of the supervising staff employed by the contractor in the execution of the work will be given due consideration in awarding the contract. The tenderers should therefore state in clear terms whether they employ such technical staff and if so to give the qualifications of such staff and the extent to which they will be employed on the work.

17. Separate payment will not be made for baling, pumping, shoring or other incidental works found necessary for dewatering and protecting foundations during execution. These charges shall be included in the unit rates for the respective works.

18. Seigniorage will not be levied on materials quarried from Government quarries.

19. Tenderers may quote an earlier date for completion of the work supported by a revised programme which will be given due consideration in awarding the contract.

If the tender is made by a Corporation, it shall be signed by a duly authorized officer who shall produce with his tender, satisfactory evidence of his authorization. Such tendering corporation may be required, before the contract is executed to furnish evidence of its corporate existence.

3. Each tenderer must pay, as earnest money, a sum of Rs. 450 (four hundred and fifty only) into the branch of the Imperial Bank of India or into the Government Treasury or sub-treasury within the jurisdiction of the Executive Engineer concerned to the credit of Revenue Deposits on behalf of the Executive Engineer of the Kistna Western Division and enclose with his tender the chalan endorsed accordingly. This earnest money will be refunded to the unsuccessful tenderer on application, after intimation is sent of rejection of the tender or at the expiration of two months from date of tender, whichever is earlier. This refund will be authorized by the Executive Engineer by suitable endorsement on the chalan. The earnest money will not be received in cash or currency notes by the Public Works Department officers.

The earnest money will be retained in the case of the successful tenderer and will not carry any interest. It will be dealt with as provided in the tender.

4. When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the Division office on the date fixed by written intimation to him. He shall forthwith upon intimation being given to him by the Executive Engineer of acceptance of his tender make a security deposit of Rs. 450 (four hundred and fifty only) in one of the

forms prescribed in the Madras Public Works Account Code and sign an agreement in the proper departmental form for the due fulfilment of the contract. This security deposit together with the earnest money and the amount withheld according to clause 68 of the Standard Preliminary Specification of the Madras Detailed Standard Specifications will be retained as security for the due fulfilment of this contract. If a cash security deposit is made by the contractor he shall follow the procedure laid down in the preceding paragraph for payment of earnest money and such deposit will not bear interest. Failure to attend the Division office on the date fixed in the written intimation from such office or to enter into the required agreement or to make the security deposit as defined in this paragraph shall entail forfeiture of the earnest money.

5. The tenderer shall examine closely, the Madras Detailed Standard Specifications, and also the Standard Preliminary Specification contained therein, and sign the Divisional office copy of the Madras Detailed Standard Specifications and its addenda volume in token of such study before submitting his tender unit rates which shall be for finished work in situ. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications, plans, descriptive specification sheet regarding materials, etc., can be seen at any time between 11 a.m. and 5 p.m. on office days in the office of the Executive Engineer, Krishna Western Division.

6. The tenderer's attention is directed to the requirements for materials under the clause "Materials and workmanship" in the "Preliminary Specification." Materials conforming to the British Standard Specifications shall be used on the work, and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries and satisfy himself about the quality and availability of materials. The names of quarries, kilns, etc., wherefrom certain materials are to be obtained will be given in the Descriptive Specification Sheet. The best class of materials to be obtained from the quarries or other source defined shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications, or in this tender notice, or as required by the Executive Engineer in any case, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor, after examination of the source of materials defined in the Descriptive Specification Sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification Sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of seigniorage, tolls, etc.

8. The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary Specification" dealing with—

(1) Test, inspection and rejection of defective materials and work.
(2) Carriage.
(3) Construction plant.
(4) Water and lighting.
(5) Cleaning up during progress and for delivery.
(6) Accidents
(7) Delays.
(8) Particulars of payment.
(9) Responsibilities and liabilities of contractors.

The contractor should closely peruse all the specifying clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies this tender notice. It shall be distinctly understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that this schedule is liable to alterations by omissions, deductions, or additions at the discretion of the Executive Engineer, Krishna Western Division, or as set forth in the conditions of contract. The tenderer will, however, base his lump-sum tender on this schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees, annas, and in sums of three pies. The rates should be written both in words and figures and the sums in words. The tenderer should also show the totals of each item and the grand total of the whole contract, and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract, such lump sum agreeing with the total amount of schedule 'A'. This schedule accompanying the lump-sum tender shall be written legibly and free from erasures, overwritings or conversions of figures. Corrections, where unavoidable, should be made by crossing out, initialling, dating and rewriting.

10. Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or in due time will be rejected. Rates or lump-sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognized, and, if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress, and the dates for the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time, as will be indicated by the Executive Engineer's certificates of the value of work done, will be required. Date of commencement of this programme will be the date on which the site (or premises) is handed over to the contractor:—

Period after date of commencement.	Percentage of work completed (based on contract lump-sum amount).
Three months	5 per cent.
Six months	20 "
Nine months	40 "
Twelve months	60 "
Fifteen months	80 "
Eighteen months, etc. ..	100 "

13. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorizing others to receive payment on the contractor's behalf.

14. If further necessary information is required, the Executive Engineer of the division will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

15. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

16. The qualifications of the supervising staff employed by the contractor in the execution of the work will be given due consideration in awarding the contract. The tenderers should therefore state in clear terms whether they employ such technical staff and if so give the qualifications of such staff and the extent to which they will be employed on the work.

17. Separate payment will not be made for baling or pumping water or for protective works. The cost of all works necessary for dewatering and protecting foundations during execution must be included in the unit rates.

18. The tenderer may however mention an earlier date which but will be taken into consideration and this earlier date will therefore be considered as the date fixed for completion of the work.

from the quarries or other source defined shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications, or in the tender notice, or as required by the Executive Engineer in any case, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor, after examination of the source of materials defined in the Descriptive Specification Sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification Sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Superintending Engineer.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of seigniorage, tolls, etc.

9. The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary Specification" dealing with—

(1) Test, inspection and rejection of defective materials and work.
(2) Carriage.
(3) Construction plant
(4) Water and lighting.
(5) Cleaning up during progress and for delivery.
(6) Accidents.
(7) Delays.
(8) Particulars of payment.
(9) Rating and shoring for which no extra payment will be made.

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies this tender notice. It shall be definitely understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that this schedule is liable to alterations by omissions, deductions, or additions at the discretion of the Executive Engineer, Ramnad Division, or as set forth in the conditions of contract. The tenderer will, however, base his lump-sum tender on this schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees, annas, and in sums of three pies. The rates should be written both in words and figures and the units in words such lump sum agreeing with the total amount of schedule. The tenderer should also show the totals of each item, and the grand total of the whole contract, and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract. This schedule accompanying the lump sum tender shall be written legibly and free from erasures, overwritings or conversions of figures. Corrections where unavoidable, should be made by crossing out, initialling, dating and rewriting.

10. Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or in due time will be rejected. Rates or lump-sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognized; and, if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12 The price at which and the source from which certain particular materials shall be obtained by the contractor are given at the end of the schedule accompanying the tender form. Tenderers must accept the material at these prices, and shall quote their price for finished work accordingly. Notwithstanding any subsequent change in the market value for these materials, the charge to the contractor will remain as originally entered in the written contract. No cartage or incidental charges will be borne by Government in connexion with this supply

13 The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress, and the dates for the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time, as will be indicated by the Executive Engineer's certificates of the value of work done, will be required. Date of commencement of this programme will be the date on which the site (or premises) is handed over to the contractor.

Period after date of commencement.	Percentage of work completed (based on contract [illegible] sum amount)
Three months ..	5 per cent.
Six months	20 ,,
Nine months	35 ,,
Twelve months ..	55 ,,
Fifteen months ..	80 ,,
Eighteen months, etc. ..	100 ,,

14. No part of the contract shall be sublet without written permission of the Superintending Engineer nor shall transfer be made by power-of-attorney authorizing others to receive payment on the contractor's behalf.

15. If further necessary information is required, the Superintending Engineer of the Trichinopoly Cycle will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions

16. The Superintending Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

17 The live trees standing on the ground will have to be cut by the contractor without any charge and stacked at site shown by the Subordinate in charge of the work. They belong to Government and will be sold and the amount realized credited to Revenue.

18 No seigniorage charges need be paid for the materials to be taken from Government quarries and that the successful tenderer should make his own arrangements with the owners of the quarries for materials taken from private quarries.

Report of Select Committee on the Bill to amend the Madras Estates Land Act, 1908 (Bill No. 11 of 1936) .. .. PAGE 271

Under S.O. 41 of the Standing Orders of the Madras Legislative Council, the following Report of the Select Committee on the Bill further to amend the Madras Estates Land Act, 1908, and to amend the Madras Estates Land (Amendment) Act, 1934, for certain purposes (Bill No. 11 of 1936) is published:—

To

THE HONOURABLE THE LEGISLATIVE COUNCIL
OF THE GOVERNOR OF MADRAS.

The Select Committee appointed to consider the Bill further to amend the Madras Estates Land Act, 1908, and to amend the Madras Estates Land (Amendment) Act, 1934, for certain purposes (Bill No. 11 of 1936) has the honour to make the following report.

2. The Bill was published in the *Fort St. George Gazette*—

in English ... on the 17th March 1936
in Tamil, Telugu; Kanarese and Hindustani .. on the 24th March 1936.

3. The Committee met on the 15th June 1936, in the Committee room, Secretariat buildings, Stonehouse Hill, for the purpose of considering the provisions of the Bill; and on account, *inter alia*, of the absence of Dr. Subbarayan, it resolved to meet again at Madras on the 27th of July 1936 for the consideration of the Bill. The Committee has been sitting in Madras from day to day since the 27th of July and considering the Bill.

4. The provisions of the Bill have been subjected by the Select Committee to a very thorough and careful scrutiny. The Committee has not found it necessary to make any changes in the main provisions of the Bill except those that are referred to below.

5 *Clause* 8.—This clause introduces a new section which has the effect of removing inam villages from the operation of sections 182 to 185 of the Madras Estates Land Act, and of introducing certain other provisions for regulating the procedure for the determination of private land in inam villages. As the intention of the Bill is to assimilate inam villages as far as possible to zamindaris, the enactment of a special procedure for the determination of private lands in inam villages is undesirable. The Select Committee has therefore deleted clause 8.

6. *Clause* 9.—As a result of such deletion, the Committee has also deleted the proposed new sections 185-A and 185-B introduced by clause 9 of the Bill, though it is found necessary to retain the effect of explanations (2) and (3) of proposed section 185 A, by means of new additional provisos to existing section 185 of the Act and to proposed section 185-C.

7. Proposed section 185-C refers to the constitution of a special tribunal for the determination of inamdars' kudivaram rights in estates. It is however not intended that the special tribunal should be a permanent one. To enable an application to be made, whether such a tribunal is in existence or not, the Select Committee has made alterations in

proposed section 185-C authorising the Government to issue a notification for the receipt of applications for the declaration of kudivaram rights by the special tribunal.

8. On the question of compensation, the Committee has considered all possible alternatives, and has come to the conclusion that the amount of compensation payable by a tenant to the inamdar for the acquisition of the kudivaram right shall not exceed two and a half times the annual rental value of the land in respect of which the right is acquired, together with the cost of preparing any instrument required for the purpose.

9. The Select Committee has made a few verbal alterations which it is not necessary specially to notice. The Committee considers that it is necessary to republish the Bill.

10. A copy of the Bill, as amended, is annexed.

FORT ST. GEORGE,
30*th July* 1936

N. SIVARAJ,
Chairman of the Committee.

[Note.—The changes made by the Select Committee are shown in clarendon type and the portions omitted are indicated by dots.]
